

MCS 7500

A new Standard in Safety and Speed

NUSSBAUM

■ The culmination of our inventions creates a new refer

Fast lifting and lowering, little installation and positioning time and absolute safety guarantee the productivity of your investment.

One only electrical power supply outlet serves all lifting columns, which are connected in series.

- absolute safety with SST
- electronic controls ensure perfect synchronization of all lifting columns -within a millimeter-
- lifting time 60 sec.
- minimum installation time required
- programable stopping positions
- can be extended to 6, 8 or more lifting columns, without additional electrical power supply

Nussbaum hydraulics with intelligent sensors. The revolutionary and patented interactive safety system SST, guarantees absolute safety when lifting, lowering or in the stationary position.

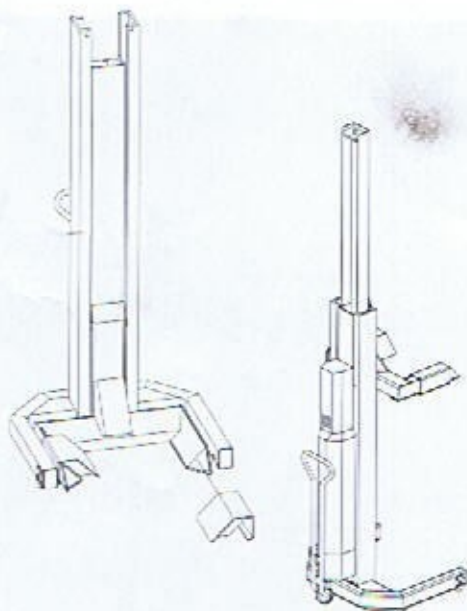

Comfortable controls
From any column, synchronized, individual and tandem operation can be selected. The digital read-out gives the...

Technical Data

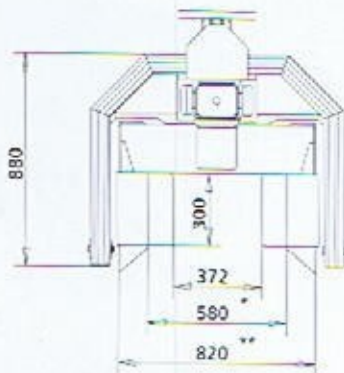

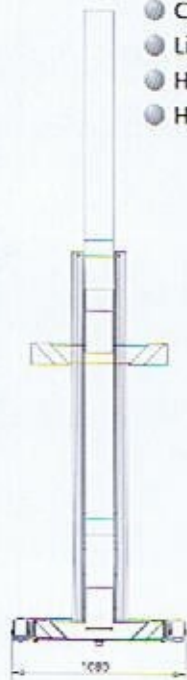

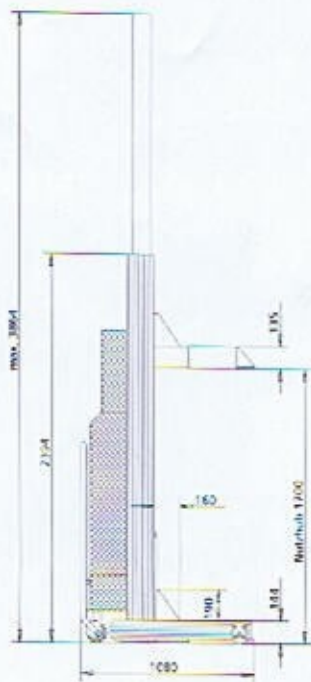

Technical data (per lifting column)

MCS 7500

Lifting capacity (kg)	7500
Effective lifting height (mm)	1700
Working height (mm); any between	0 - 1700
Area (mm)	1080 x 1080
Overall height (mm)	2394 - 3864
Lifting time (sec)	60
Lowering time (sec)	55
Motor capacity (kW)	3,0
Weight (kg)	540
Protection	IP 55
Drive	electro-hydraulic

Options

- Support stands with exchangeable pick-ups
- Lifting jacks for drive trains
- Wheel mounting caddy
- Chassis traverse
- Lighting
- Hydraulic transporter
- Hot galvanization
